

# EMULSIONS PRODUCERS' DAY

OCTOBER 2<sup>ND</sup> 2006

Register only on our website [www.world-of-emulsions.com](http://www.world-of-emulsions.com)

## ■ ■ ■ Emulsions producers' day

The objectives of IBEF consist of Promoting the use of bitumen Emulsion and exchanging information related to promotional means, standardisation, safety and the developments of bitumen emulsion applications.

In essence IBEF is an international vehicle for information and technology exchange related to bitumen emulsion.

IBEF supports conventions dedicated to bitumen emulsions and organises every second year, alternatively a world symposium of bitumen emulsion manufacturers and an international symposium on asphalt emulsion technology.

## ■ ■ ■ Preliminary program

### ■ ■ The World of Emulsions:

- presentation and results of worldwide study
- market and trends,
- specific advantages of emulsion
- sustainable development,
- consumers' point of view,

### ■ ■ Tools to ensure development of emulsion market:

- logistics
- standards, guides
- technical assistance,
- high-potential techniques (high float, clean tack coats, etc.)
- environmentally-friendly, bio products, and the future

At least 200 people are expected to attend, including a majority of emulsion producers, several key emulsion promoters, international organisations and major customers to give their viewpoint on why they chose emulsion for improved management of maintenance programs.
